

POINTS SCHEDULE

Points were established to encourage all families to participate in as many band and booster activities as possible. Points are earned for almost any activity families do to benefit the band. Point requirements are effective from January to December of each year; all requirements are to be fulfilled by November 30. Up to 50 points per band student may be carried forward to the next year.

To ensure that you receive credit for your volunteer activity, be sure to report to the chair of that event. The chair will have a sign-in sheet; at the conclusion of the event, the chair will send that sheet to the financial secretary and the points will be recorded. Each family will receive a monthly statement showing the points accumulated. Any questions should be directed to the financial secretary.

Point Requirements: The amount of points required by each family depends on the activities in which their child/children participate. Any family that does not earn its required points may be assessed a fee per point not earned. **Winter Guard & Percussion:** Each family must earn 100 points for the first child, plus 50 points for each additional child from the same family. **Marching Band:** Each family must earn 200 points for the first child, plus 100 points for each additional child from the same family.

ACTIVITY	POINTS EARNED
